PATRON PROFILE

Gannon & Scott Leads the Way in Responsible Precious Metal Reclamation

With ONE CENTURY of precious metals (PM) refining experience, **Gannon & Scott** leads the way in maximizing customer returns while reflecting on the path that has brought them to this milestone. Gannon & Scott believes that its success comes from an unwavering commitment to their customers and the support and betterment of their industry.

Gannon & Scott serves customers across North America utilizing its East and West Coast facilities to maximize geographical efficiency. Their customers come from a variety of industries including jewelry manufacturing, military & defense, semiconductor, medical and electronic scrap to name a few. They maintain strong relationships with fellow refiners and downstream smelters and work with them where their services complement each other.

Their state-of-the-art technology is equipped to handle customers ever-evolving materials so as their needs change,

they can continue to rely on Gannon & Scott for the quality refining services they've grown accustomed to. Equipment capacities are highly diverse and well designed and configured to handle a wide range of material. From small volume high grade lots to lower grade high volume residues, including Certified Destruction services of sensitive intellectual property and classified materials the company stands ready to serve nearly any (PM) recovery need. Gannon & Scott's *Tru3Tec*® thermal reduction furnace system combined with its advanced pollution controls gives customers both environmental peace of mind and a resource capable of handling complex material.

To further show their commitment to our environment, Gannon & Scott installed and maintains a 4000 square meter roof top solar system on one of its East coast locations which produces enough energy to power 60 homes. The system is consistently monitored and a live feed and analysis chart can be accessed right on their website, www.gannon-scott.com.

PATRON PROFILE

GANNON & SCOTT

One Century of Refining Service & Excellence

Gannon & Scott operates an ISO 9001:2015 registered lab. The on-site lab allows for a quick assay turnaround time thus reducing the end-to-end processing time. The laboratory technicians turn out the highest quality results using a variety of techniques including fire assay, traditional wet chemistry and modern spectrographic analysis.

Gannon & Scott's financial strength provides the foundation to continuously reinvest, allowing them to serve new markets and to make certain their equipment is up-to-date and operating at optimum efficiency. This ensures their banking and vendor relationships are strong and their customers can rely on Gannon & Scott to always deliver on their contract obligations. Customer material is never leveraged and Gannon & Scott is committed to serving its key stakeholders – their customers, employees.

As a founding and Patron Member of IPMI, Gannon & Scott has stayed committed, engaged and has served in both leadership

and supporting roles on many of the Institute's Boards, Committees and Chapters. Many of Gannon & Scott employees have donated their time and efforts in support of IPMI and the company holds the unique and proud distinction of having three generations of Board service. In celebration of the One Century milestone Gannon & Scott will be hosting this year's Welcoming Reception at the Annual Conference in Reno Nevada. It's their strong belief that maintaining a strong trade organization is a win-win for the precious metal industry.

As they take a moment to celebrate one century of refining excellence, they also remain focused on what's next. Gannon & Scott is looking forward to continuing their leadership and commitment to both their customers and this industry over the next 100 years.

We Generate High Value for PM Refining Customers

We believe that when it comes to refining precious metals (PM), customers deserve integrity, value and timely settlements. Generating and returning high value has been our hallmark for success for 1 Century.

Our formula is simple:

- Maximize PM Recovery
- Industry-Leading Customer Care
- Environmental Sustainability

We started in 1919 serving jewelry manufacturers. Today we also serve customers in: Military, Aerospace & Defense, Semiconductor Manufacturing, Clad Metals, Glass, Plating & Surface Finishing, E-Scrap Recycling, and others.

Learn more about how we can generate high value for you...

Find the confidence, assurance and reliability you deserve in your PM Refining program. Partner with Gannon & Scott, a trusted and experienced industry leader.

PURCHASING

Diverse range of purchasing and hedging programs.

TRAINING

Over 48 000 individual catalytic converters catalogued.

TOLLING

Sampled and assayed to determine the amount of Pt, Pd & Rh present

TRADING

Able to enter into metal supply contracts for buying and selling of all precious metals.

**GLOBAL METALS &
MINERALS SPECIALISTS**

We deliver a full range of analytical services to our clients, in addition to providing independent inspection and technical expertise.

The Alfred H Knight North American laboratory is ISO17025 accredited and specialises in analysing precious and platinum group metals in a broad range of commodities.

In addition to our experienced chemists and technicians, our operations have dedicated teams of knowledgeable support staff committed to assisting our clients in all aspects of precious and platinum group metals inspection and analysis.

AHK North America offers independent inspection, weighing and sampling services to the precious and platinum group metals industry. Our locally based, experienced inspectors cover all major precious metal refineries, producers and re-claimers in the US and Canada.
